

Design **D'Alesio&Santoro**

Understatement and minimalism translate into linear light. **Spectra.** An indisputably elegant pendant that encompasses evolved technologies in a minimal design.

Its arched shape becomes even more invisible when it is suspended in the setting, radiating its powerful, comfortable light provided by its high efficiency 600 LEDs.

Reggiani - Light+Building 2010
Frankfurt

Code: 0.25000.00

Pendant with extruded aluminium structure only 13 mm thick, slightly curved and hanging from steel cables (3000 mm). Prismatic safety shield with special optical films that can focus the light beam from over **600** high efficiency **LEDs, 45W** 3000lm (75lm/W), with colour temperature of 3900 K (bin selected), CRI >85. Constant current driver housed in the ceiling.

IP 40

Standard finish: 28 metallised grey
