Reggiani

We transform spaces & experiences with light

Established in 1957, Reggiani is now an international benchmark in the lighting industry. A community of lighting experts that provides its customers with cutting-edge technological solutions with an open, collaborative and problem solving approach.

We are always innovating, bringing new and inspiring ideas and solutions to you. This year we've been busy in our research and development lab, here's a few of our favourites.

4

Frame

Frame is a timber system that is modular and has a vast amount of flexibility. It has an extensive material palette that can combine wood and metal finishes. It integrates easily with our product families: Mood, Yori, Yori Pendant and Traceline combined with technical control options and the ability to add components like sensors and cameras to it.

Homy

Homy is a touch control decorative table lighting solution that provides soft and ambient illumination for a wide range of residential and hospitality applications. It can be mains power or operated by battery, which can run for 6-8 hours. It is able to provide warm light or warm dimmable light from 1700K to 3000K and comes in beautiful finishes like brushed paintings, chrome and our new timber Natural Collection.

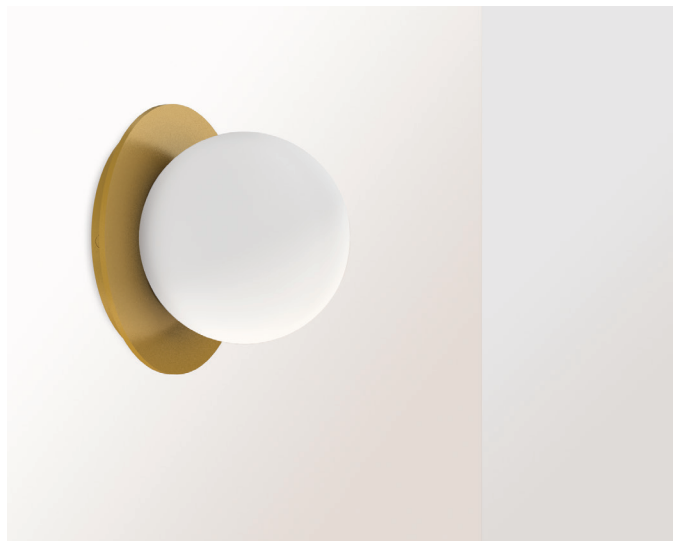

Olo

Olo is an elegant and discreet trimless circular aperture with a diameter of 110mm. It features 1, 2 or 3 projectors concealed minimally in the ceiling. Hidden inside the unit is an invisible internal rail which allows the projectors to be vertically and horizontally adjusted. You can choose Ø35, Ø43 and Ø60mm projectors with lumen output from 500 to 2000lm. Olo projectors come with a wide range of accessories and optics available.

Natural Collection

Thanks to our research for architecture and materials integration, now our product lines of downlights, projectors, pendant and linears are available upon requests in real timber essences like oak, teak, ziricote or rosewood.

Hop

Hop is our brand new wall and ceiling lighting solution. It is a spherical shape providing a soft light and it comes in two sizes: 100 and 120mm. The sphere is made out of frosted glass and the surface base is available in white, glossy black, chrome, brushed copper and other stylish finishes.

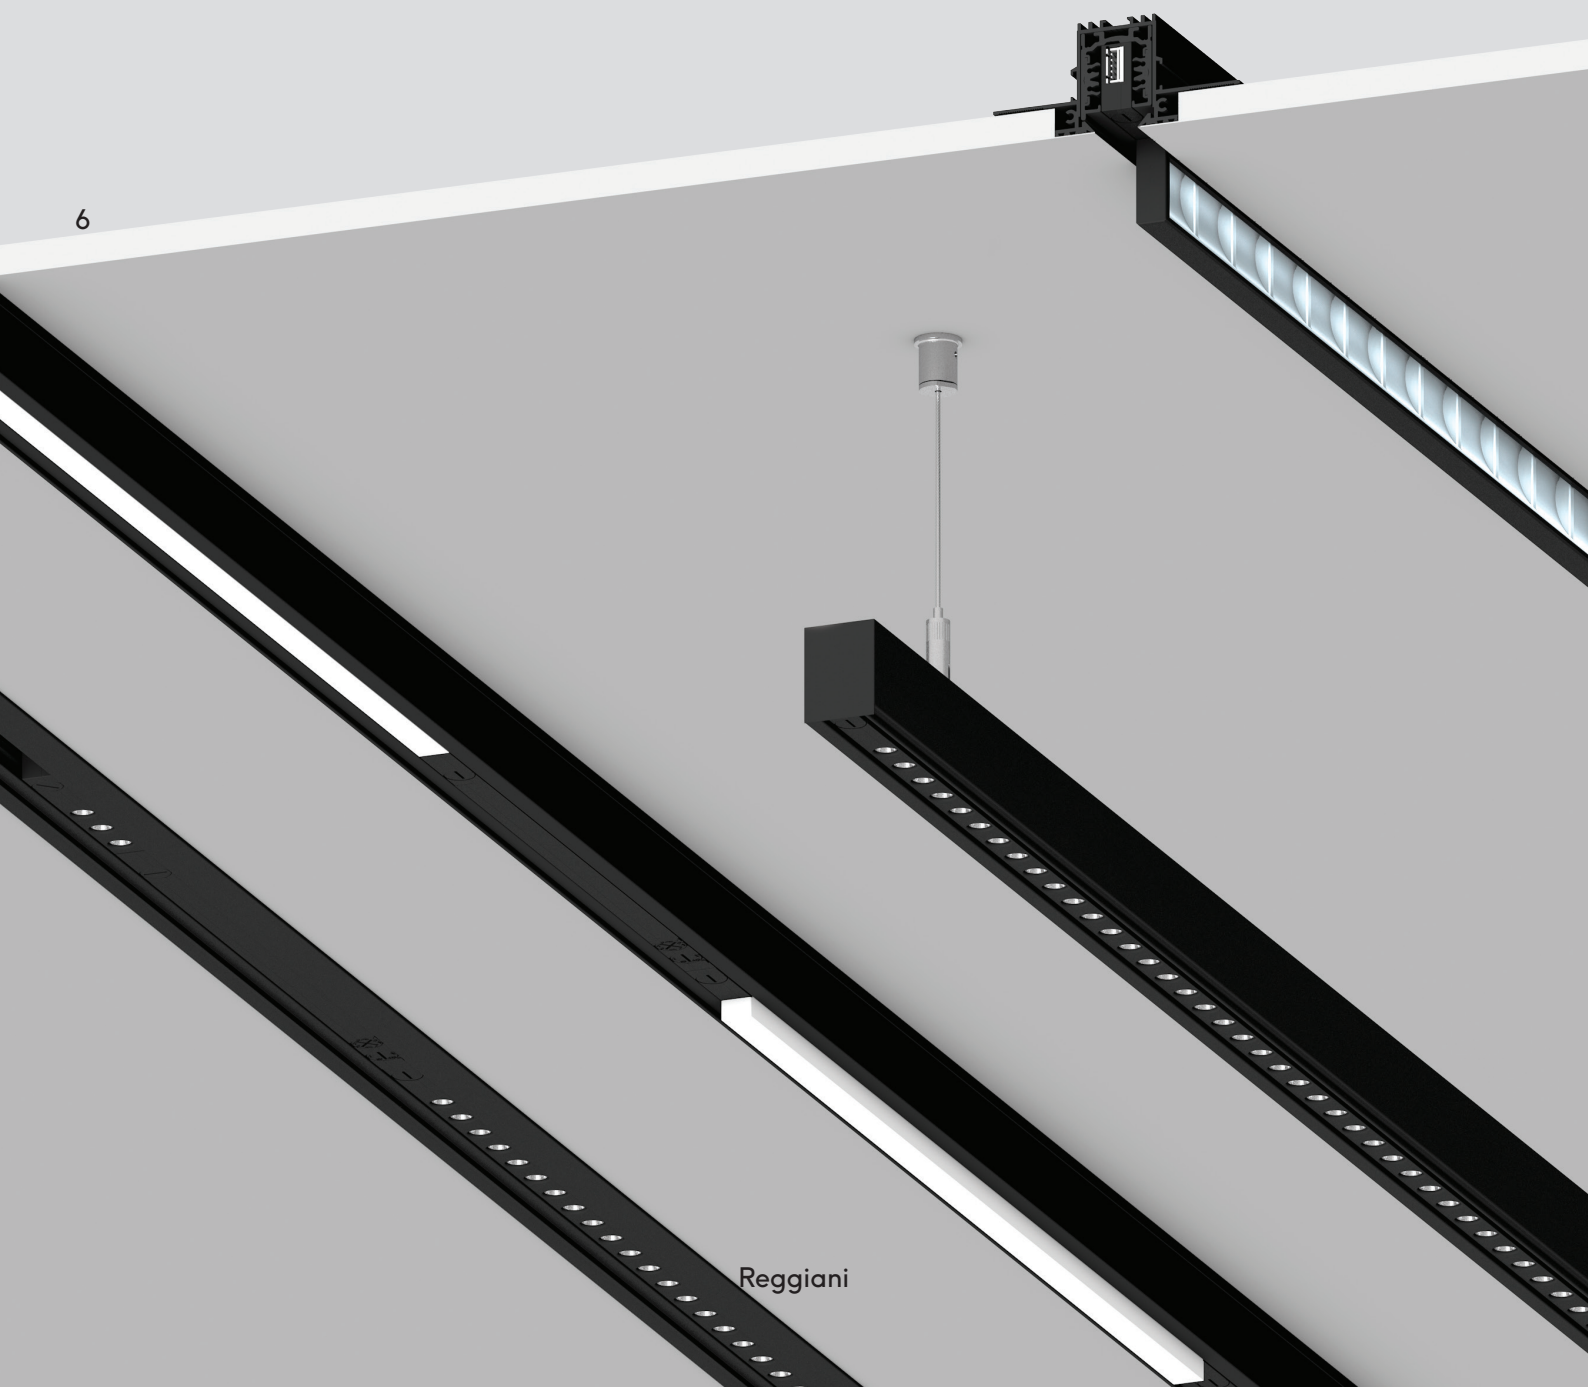

5

Creol

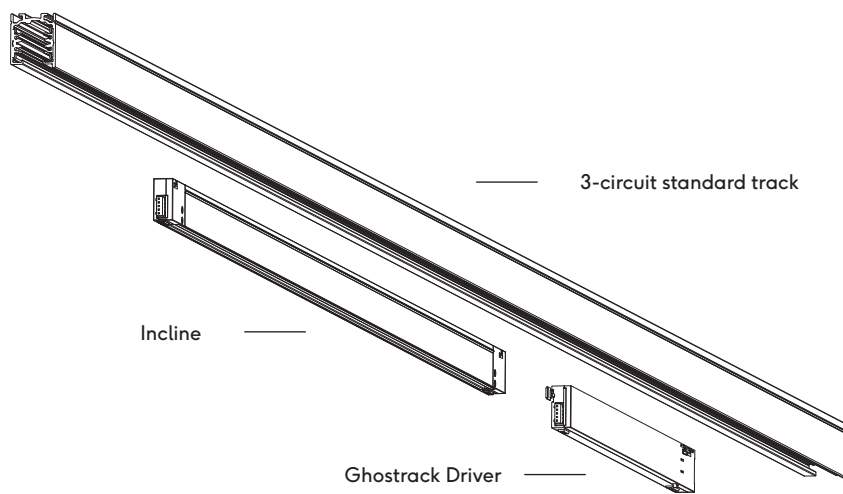

We are collaborating with Creol - a wireless mesh lighting system to help clients control their buildings, reduce energy consumption and offset the remaining environmental building impact. The dApp allows users to set targets for lowering their energy impact and track their performance. Creol can automatically offset the building impact with Carbon Credits and Renewable Energy Certificates. For more info: www.creol.io

Incline

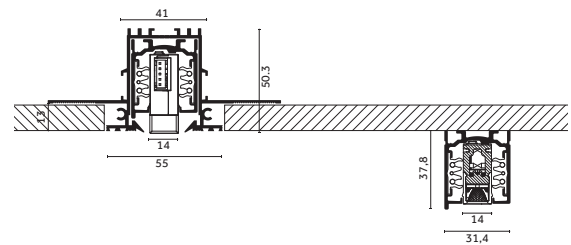

Incline has been designed to bring you a miniaturised yet high performing, integrated track lighting solution. The unique micro fixture is completely integrated inside the 14mm aperture of the 3-circuit track.

Track 220-240V / Incline

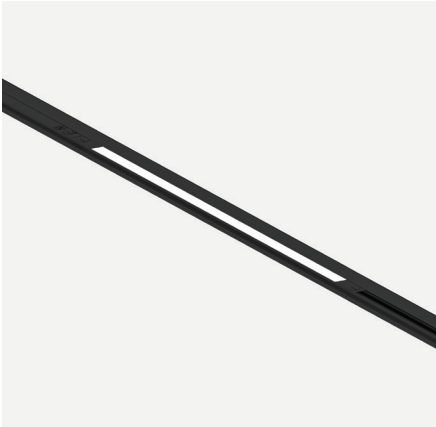

7

Unique and subtle when used with our 3-circuit trimless track.

High performance and cutting edge optics with micro sizes.

There is a tool-kit of different diffusers, micro reflectors and wall washer optics for general, controlled and vertical illumination; giving you the ability to achieve your desired solution.

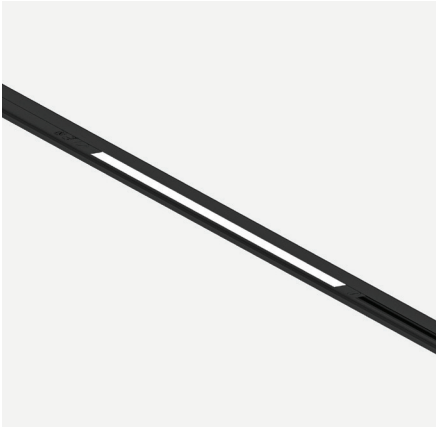

Incline Opal flush

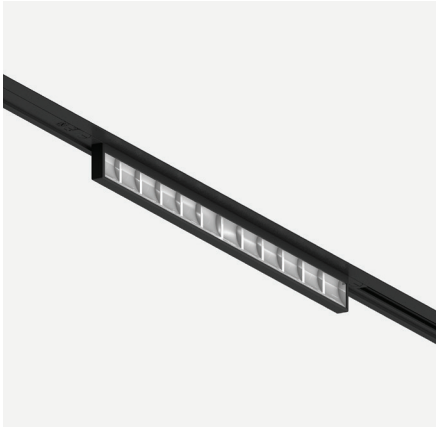

Incline Opal drop

Incline Dark Performance UGR<19

Incline Asymmetric lens

Incline wall washer drop

Technical specifications

Asymmetric lens and wall washer drop reflector

Asymmetric
10W/m, 15W/m, 21W/m
Lumen output >2000lm
Efficacy >85lm/w

Wall washer reflector
Lumen output >1700lm
Efficacy >80lm/W

Dark Performance UGR <19

High output
62,5mm, 125mm, 250mm
Lumen output up to 1200lm
Efficacy up to 75lm/W

Mid output
250mm, 500mm, 1000mm
Lumen output up to 2200lm
Efficacy up to 85lm/W

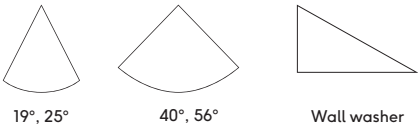

Opal and Opal drop

Diffuser transmittance of 60%.
9W/m, 13W/m, 19W/m
Lumen output >2700lm
Efficacy >85lm/W

LED

Mid power LED
Nominal efficacy >160lm/W
2200K, 2700K, 3000K, 3500K, 4000K
SDCM<3, L80 B50=50,000h
CRI >80, CRI>90, CRI >95

Beams

The controlled and glare-free micro reflector UGR <19 can be fully integrated with a wide variety of technical and decorative accessories for unique flexibility to design.

Magnetic squared and rounded holder can accomodate up to 2 accessories

Decorative frosted block

Solite, opal or elliptical beam lens
(Can accomodate also 1 selective or colored filter)

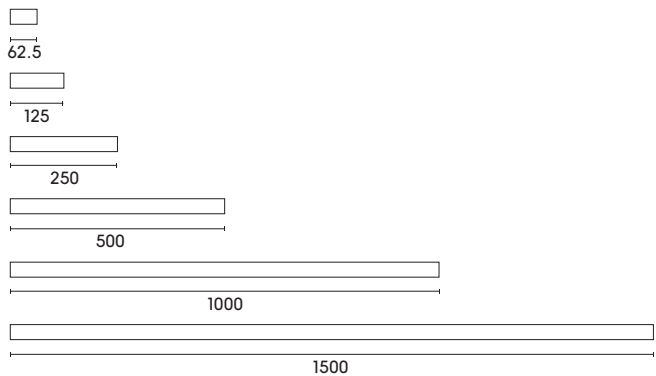

Honeycomb
(Can accomodate also 1 selective or colored filter)

Squared holder for selective or colored filter

Traceline

Traceline is an outstanding and flexible system that uses the latest technology to reinvent architectural linear lighting. It can be applied as deep recessed, recessed, surface, pendant or deep pendant mounted with the ability to insert Yori spots. It has a built-in control system including wireless options and comes with a variety of finishes and optics.

10

250x250
500x500
750x750
1000x1000

500x500

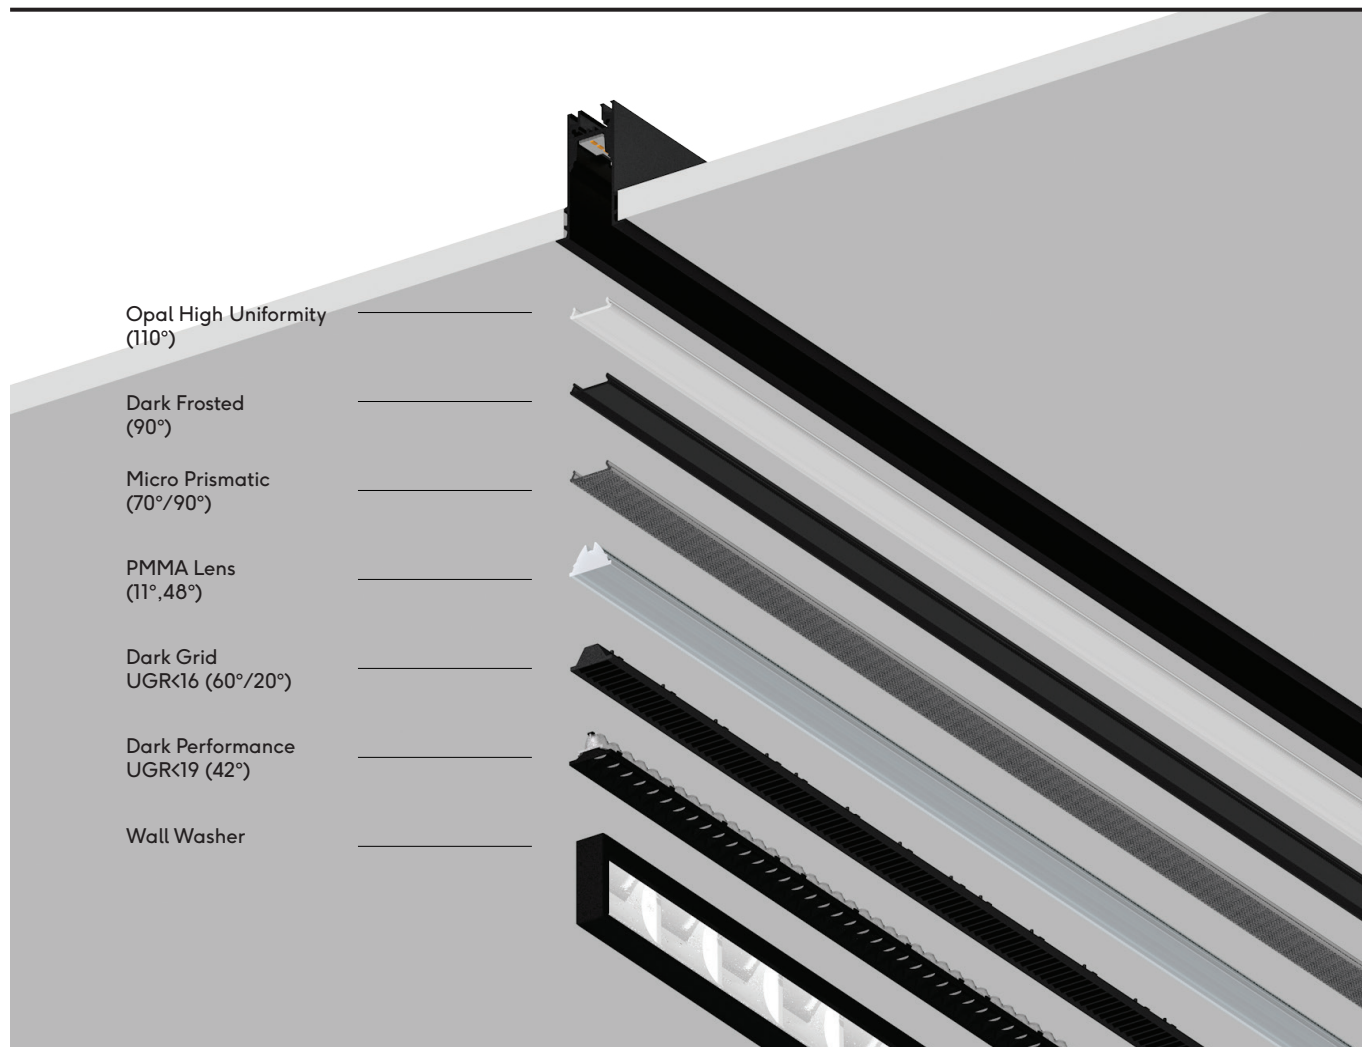

500x250

250x250
500x500

The system comes with an array of diffusers, reflectors, lens and wall washer optics, all inside a profile of only 20mm. This makes Traceline an ideal linear system for architectural, commercial and office applications.

12

Technical specifications

Opal

Diffuser transmittance of 55% and 70%

We share our
knowledge and
experience, adding
that little extra that
makes the difference.

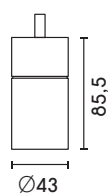

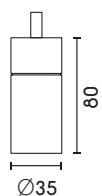

Yori Pro

Yori Pro is an exciting update to the Yori family, our most efficient, elegant and flexible projector. Yori Pro has incredible precision and performance optics and is available in two sizes: Ø35 and Ø43mm – it goes above and beyond in creating accent lighting.

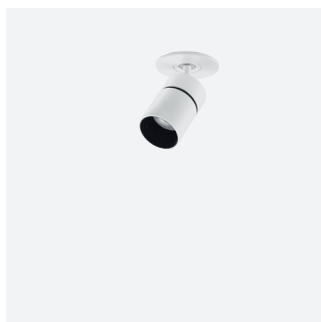

Sizes

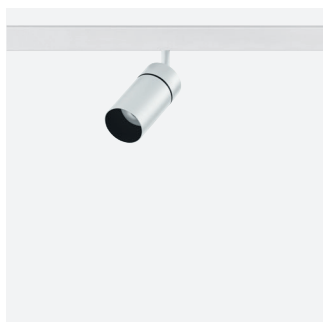

19

Pro version available for:

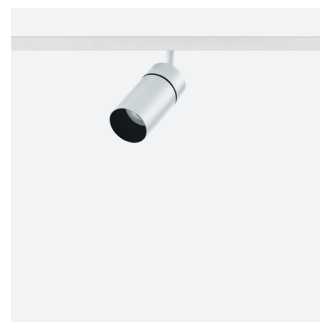

Yori Semi-recessed

Yori Evo Ghosttrack

Yori Evo Box

Yori Evo 48V

Technical specifications

Yori Pro 43mm
Lumen package >1200lm
Efficacy up to 85lm/W

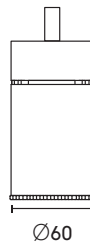

Yori Pro 35mm
Lumen output >700lm
Efficacy up to 80lm/W

Yori Zoom

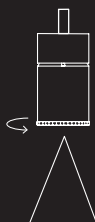

Yori Zoom is an excellent and flexible accent lighting solution for restaurants, residential spaces, retail stores and galleries. The beam angle can be adjusted between 10° and 57°. Yori Zoom is available for Ø22, Ø35, Ø43 and Ø60mm spot heads for both track systems, 220V and 48V, and semi-recessed option.

Sizes

Adjustable beam angle from 57° to 10°
gives a soft and even distribution

Cells

Cells is a range of recessed or surface-mounted luminaires suitable for ceilings or walls; inside and out. These high performance luminaires can add an extra dimension to its chosen architecture. The advanced optics control system makes it possible to program options for general lighting or bespoke configurations.

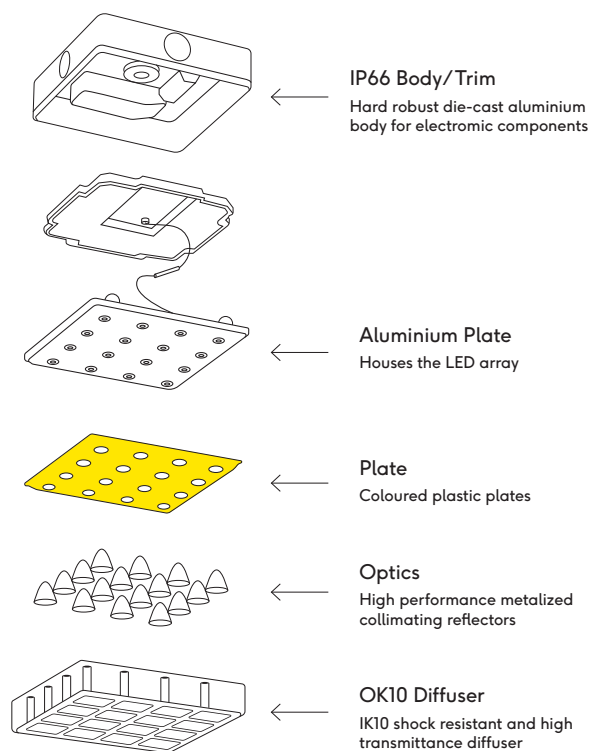

30

* Now available with
a lumen output up to 3000lm

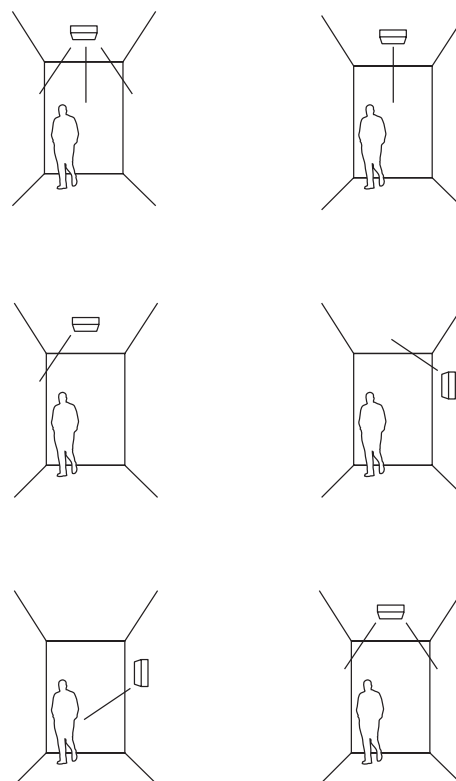

Component breakdown

Cells is extremely flexible and has a number of different finishes, diffusers and optical configurations.

Optics

The advanced optical control system makes it possible to select optics for general lighting or bespoke applications.

31

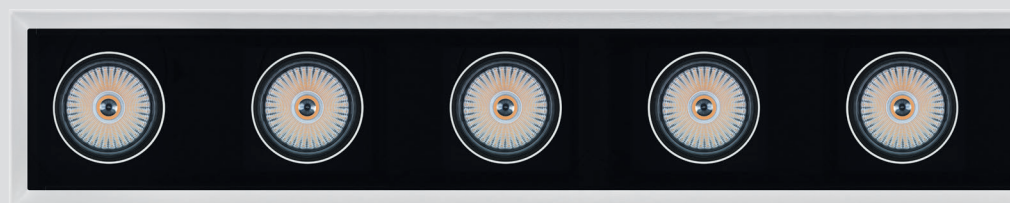

IK10 shock resistant

Cells now has a higher lumen package and dynamic white option, with range from 2700K to 6500K.

Unit

Trim or trimless, single, double, triple or continuous.
Unit is our recessed spotlight, able to integrate precision and performance optics, designed to be flexible, powerful and subtle.

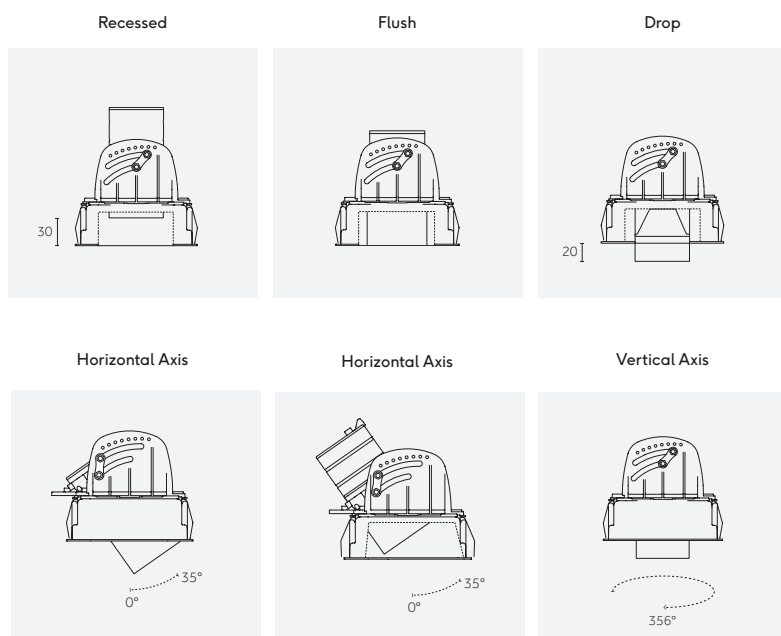

32

* 2100lm delivered and 110lm/W

Adjustability

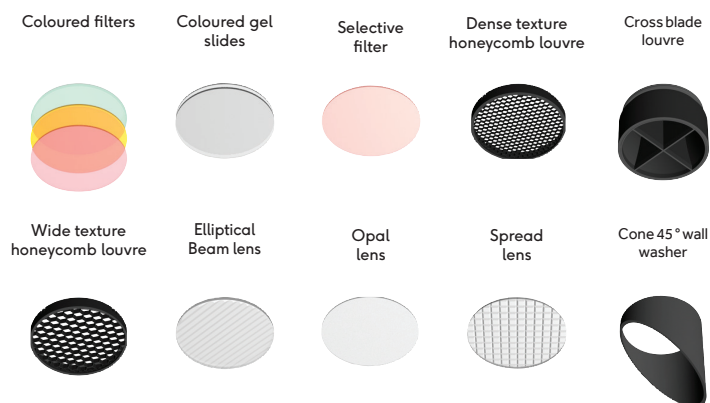

Unit has six different combinations of adjustability to reflect its chosen application. The Ø60mm spotlight provides a lumen output of >2100lm, with a efficacy of 110lm/W.

33

Accessories

Unit has a wide range of lenses so it can be adapted to meet any number of lighting design needs.
